# Historic Structures Fund

The Historic Structures Fund (HSF) was established in 1985 to provide small matching grants for the preservation or restoration of noteworthy architectural features of historic buildings, sites, and monuments throughout the City of New Haven. Grants are not awarded for basic maintenance or ordinary repairs. Grants may also be made to support research, documentation and preparation of materials for the purpose of proposing a nomination or retaining a listing on the National Register of Historic Places and/or the State Register of Historic Places.

Any person or institution that owns historic property in New Haven in one of the Preservation Trust’s priority categories is eligible to apply for a grant.

### Historic Structures Fund Priorities:

1. Wooster Square, Quinnipiac River and City Point local historic districts
2. NHPT-designated New Haven Landmarks
3. Properties listed on the National Register of Historic Places

The Preservation Trust may make awards for resources outside of these priorities if they possess outstanding historic or architectural significance. Preference is given to low- and moderate-income residents. Non-profit organizations, be they educational, religious, or cultural, are encouraged to apply.

*Funding for grants fluctuates each year. Please note that if the Preservation Trust receives applications for more funds than are available, preference will be given to projects for buildings with the greatest architectural or historical significance.*

**For further information contact us at [info@nhpt.org](mailto:info@nhpt.org).**
